

Curriculum Vitae

Name First name: Akperov Imran

Date of birth: 19.04.1958

Address: 35/34A 2nd Krasnodonskaya street, Rostov-on-Don, Russia

Telephone number: +7 863 2924386, +7 928 2260969

e-mail: rector@iubip.ru

EDUCATION: 2000, Rostov State Economic University – defended the dissertation for Doctor of economic Sciences degree, area of research: mathematical and instrumental methods in economics. Dissertation: Modeling and forecasting of specialist demand in regional economics; 1987-1990 Rostov State Transport University. Candidate of technical Sciences. Dissertation: Automation of railway energy supply facilities; 1975-1980 Rostov State Transport University, Specialist (Engineer)

ACADEMIC DEGREE: Doctor of economic Sciences degree (2000)

WORK EXPERIENCE: 1991 – present Rector, South University (IMBL), Rostov-on-Don, Russia; 1987-1991 Professor, Rostov State Transport University, Rostov-on-Don, Russia

EXPERIENCE OF PEDAGOGICAL WORK: Head of the department "Management"

WORK EXPERIENCE: 29 years.

EXPERIENCE OF PEDAGOGICAL WORK: 29 years.

SCIENTEFEC INTERESTS:

- Optimization of the branch structure of the regional economy in the context of economic security;
- Perfection of the economic mechanism of enterprises;
- Managing the economy of municipalities;
- educational organization management;
- Strategic and operational management of innovative business development;
- Innovative business development within the framework of the cluster approach;
- Marketing maintenance of innovative business development;
- Improving the logistics flow processes in economic systems on the basis of an innovative approach;
- Research and improvement of the management system within the framework of innovative business development;
- Engineering business and management innovation development organizations;
- Staffing of innovative business development;
- Improving the innovative process control systems based on the methodology of adaptive management structures;
- Improving the system of state and municipal management of innovative processes based on the methodology of adaptive economy;
- Improving the state and municipal management based on information technology and marketing;
- Formation of a regional innovation system.

LANGUAGES (TOEFL/ IELTS): English – intermediate level

PROFESSIONAL SKILLS: Extensive knowledge of Microsoft Office programs and confidence in the use of technology for research, administrative and teaching purposes.

PUBLICATIONS: More than 160 publications in the area of education system, management optimization, modern technologies in management, regional economics and labour market; among them:

1. Akperov I.G. Selection compensating devices in the electrical system based on asymmetry traction loads. Automated railway power supply systems. – Rostov-on-Don: RIERT, 1990. – p. 52-56.
2. Akperov I.G. Reactive power compensation in the power system with traction load. Improving the efficiency of rail transport equipment: interuniversity collection of young specialists scientific papers. – Rostov-on-Don: RIERT. 1990. – p. 20-23.
3. Akperov I.G., Samsonova E.U. The methodology of calculation of the system reactive power compensation in electrical networks with unbalanced loads. Improving the efficiency and quality of

- electricity supply: abstracts of scientific papers (proceedings of All-Russian scientific and technical conference. – Rostov-on-Don: RIERT, Mariupol, 1990.
4. Akperov I.G., Kovalev I.N., Samsonova E.G. System calculation of reactive power compensation in power systems with traction load. The scientific basis for the creation of energy-saving equipment and technology: abstracts of scientific papers of All-Russian scientific and technical conference. – M.: MIIT, 1990. – p. 37-39.
 5. Akperov I.G., Samsonova E.G., Kovalev I.N., Repiev V.G. Technical and economic efficiency of reactive power compensation in power systems with traction load. Automated railway power supply systems: collection. – Rostov-on-Don: RIERT, 1990. – p. 56-60.
 6. Akperov I.G., Kovalev I.N. The treatment of traction networks in systemic calculating reactive power compensation. Electricity. – 1991. - №5. – p. 12-17.
